WORK AND ACHIEVEMENTS

Created Website for Industry Outreach Cell for CIC, DU.

Won 1st Prize in Intra College Competitive Coding Competition organised by CIC, DU.

ABOUT

I do a lot of things but Web Development is the foremost. At the age of 14, I discovered my passion for making websites and just got deeper and deeper.

My knowledge of Data Structures and Algorithms makes me an adept programmer. I am not a fan of Competitive Coding but do that time to time and I am fairly good at it.

I also make Android Apps.
